RECEIVED
MAY 9 1988

DIVISION OF
OIL, GAS & MINING

Dear Mr. Hedberg,

On behalf of Kennecott Explorations (Australia), Ltd., enclosed are two copies of the revised version of the hydrology calculations, text and map for the proposed Notice of Intent for the Barney's Canyon mining facility. This revision is based on the new facility layout and should be amended to the Notice of Intent report already in your files. This amendment includes an updated version of:

1. Baseline water quality data (Appendix B)
2. Operational surface water runoff plan (Text and Appendices DI and D2)
3. Reclamation plan relating to surface water (text)
4. Surface water drainage areas map

Please replace text pages and appendices listed above with this update. Also find enclosed a copy of Kennecott's response to the Bureau of Water Pollution Control dated April 29, 1988, as you requested.

Any questions concerning the surface water runoff plan should be addressed to Rick Pole, JBR Consultants Group.

Sincerely,

Rick Pole
Hydrologist
